# Slimfit™

**S**limFit™ is a delicious, all-natural blend of three of the highest quality whey protein concentrates and isolates from around the world: Microfiltered, Ion-exchanged and Enzymatically hydrolyzed (partially predigested). This blend is 100% bioactive and contains naturally occurring immunoglobulins for added immune support. The specially processed whey protein in **SlimFit™** is designed to maximize amino acid absorption, biological value (BV), and net protein utilization (NPU).

**SlimFit™** provides 26 grams of whey protein which is considered to have the highest biological value of any protein source - superior in essential amino acid content as compared to beef, milk, casein or soy. **SlimFit™** also contains pre-biotic Inulin fiber, which stimulates the growth of friendly and healthy intestinal bacteria and supports good colon health. Since **SlimFit™** has a very low glycemic index, it is suitable for many people who are on restricted diets. **SlimFit™** contains substantially more protein and ½ the sugar of other popular products, making it an ideal body composition and weight management functional food.\*
